

Nepalgunj Medical College (NGMC)

About

Every individual should have equal access to health and education. This can be possible only when there are sufficient human resources and facilities in this sector. It is with this in mind, Nepalgunj Medical College (NGMC) has been established to produce qualified human resources as well as to provide quality health care to the People.

Nepalgunj Medical College is a place where we not only share the knowledge of saving lives but also try to inculcate in each student's mind his duty as a responsible health professional when they walk out of the college.

Our efforts of producing a socially responsible health personality have come true and today, we are considered as one of the most respected and the largest medical institution of Nepal.

As such, we have our own infrastructure required to run a MBBS and post graduation in various specialties (MD, MS, PG) course in Medical education such as a full scale 750 bedded at kohalpur hospital and 250 bedded hospital at nepalgunj, hostel & boarding facilities, sports and extra curricular facilities, library & media facilities which demonstrates our commitment to develop a world class institution in Nepal.
