

ITS DENTAL COLLEGE

📍 Gautam Buddha Nagar, Uttar Pradesh, 2006

About

ITS - The Education Group is the fastest growing educational group in Northern India. Since its inception in 1995 the ITS Group has consistently built on its reputation as a premier group of professional institutions of Management, IT, Engineering, Dental Sciences, Paramedical Sciences and Pharmacy. True to its motto “ In Service For A Healthy Nation “ , the ITS Dental College, Hospital & Research Centre focuses on both the rural and urban population by providing free transport, medicines and heavily subsidized treatment to the patients.

The group utilizes the skills and experience of outstanding faculty, staff and students who share the passion in creating an institution known for its excellence and integrity. Blending tradition with neo realities, the ITS Group lays emphasis on four cardinal tenets-

1. Academic Rigor
2. Advanced Technology
3. Practical / Clinical Application
4. Ethical Standards

THE COLLEGE

ITS Dental College, Hospital & Research Centre is situated in an Institutional Area (Knowledge Park III) of Greater Noida, U.P. This is a District Head Quarter about 25 km. from New Delhi and is located in the National Capital Region (NCR). The accessibility of the College by means of public and private transport is extremely good. The populated areas around the college provide the clinical material so vital for training in life sciences. The infrastructure is more than sufficient to fulfill the academic, administrative and residential requirements of the students and faculty and is at par with the best.

The college is a self financed institution, recognized by Dental Council of India, Ministry of Health & Family Welfare and is affiliated to Ch. Charan Singh University, Meerut. The College is offering a five year Bachelor of Dental Surgery (B.D.S) with an intake of 100 students per batch and three year Master of Dental Surgery (M.D.S) Programme.

AIMS & OBJECTIVES

The aim and objective of ITS Dental College, Hospital & Research Centre, Greater Noida is to prepare a socially acceptable dentist with adequate knowledge and necessary skills for appropriate dental practice including prevention, diagnosis and treatment of dental and orofacial diseases.

In this institute the students are encouraged to participate in "Group Discussions" and "Seminars" to help them develop expression, character and personality and other qualities essential for a dental graduate to serve the community and nation effectively.
