

# ANIL NEERUKONDA INSTITUTE OF DENTAL SCIENCES

📍 Visakhapatnam, Andhra Pradesh,

---

## About

### Vision

- To raise the bar for dental education by fostering leadership values and delivering highly competent training.
- To produce excellent, medically competent dental professionals by offering a solid clinical and biotechnical education through a faculty that is highly qualified and experienced.
- to offer a top-notch academic environment and infrastructure that supports the advanced study.

- being a centre of excellence for patient care, dental research, and education.

## **Mission**

- Creating a world-class academic dental school that fosters excellence in oral health care, research, dental education, and community service would help the population's general health.
- To offer the society comprehensive patient care at a reasonable price.
- to train qualified, experienced faculty in several areas of oral health care.
- to instil in the institution's students a high level of professional competence.
- To achieve this in a setting that is ethical and encouraging, compatible with our core values of quality, service, fairness, compassion, and effective communication, and in line with the strategic plan of the Anil Neerukonda Educational Society.

## **Goals**

- To become one of India's top dental schools.
- To create an academic environment that is stimulating and to establish ANIDS as a centre of excellence in order to meaningfully contribute to our national goal of "Health for all."
